Active Learning In Large Online Classes: How To Promote Engagement, Personalization & Connection Wednesday, December 2 ~ 1:00-2:00pm (Eastern)

Once the live date has passed, this training will be available on demand.

Overview

The importance of active learning in higher education is well-established; research clearly shows that pedagogical strategies encouraging students to reflect, analyze, process and discuss course concepts lead to increased motivation, learning, critical thinking and engagement. Yet, despite the plethora of benefits, transitioning teaching to embrace active learning can be challenging. This challenge is intensified when a course is online and becomes even more problematic when the course has a large enrollment. In this webinar, we will examine online course design strategies that allow faculty to maintain opportunities for frequent student-instructor interaction, individualized feedback, and a personalized learning experience in a large-enrollment online course. We will explore a range of approaches that can be integrated into large-enrollment online courses to engage students as active collaborators in the teaching-learning dynamic. Throughout our exploration, the emphasis will be on effective and efficient instructional strategies that allow you to embrace active learning in large enrollment online courses without overburdening instructor workload.

Objectives:

- Create an online course structure that promotes engagement, personalization and connection for a large-enrollment course
- Design an interactive asynchronous lecture
- Create synchronous and asynchronous classroom assessment techniques to encourage active learning
- Strategies for breaking large classes into small groups for interactive activities
- Integrate strategies to gain student buy-in for active learning approaches
- Learn technologies that can facilitate active learning for large groups

Who Should Attend?

- Faculty (campus-based, full-time & adjunct)
- Faculty Training & Development
- Online learning administrators
- Any educator interested in learning more about active learning for large online classes

Active Learning In Large Online Classes: How To Promote Engagement, Personalization & Connection

Wednesday, December 2 ~ 1:00-2:00pm (Eastern)

Speaker(s)

Dr. Jean Mandernach
Grand Canyon University

"Students shouldn't be denied an active learning experience simply because of class size or mode. It is essential that faculty create a dynamic, interactive online classroom whether there are 20 or 200 students."

B. Jean Mandernach, Ph.D. is Executive Director of the Center for Innovation in Research and Teaching at Grand Canyon University. Her research focuses on enhancing student learning in the online classroom through innovative instructional and assessment strategies. In addition, she has interests in the development of effective faculty evaluation models, perception of online degrees, and faculty workload considerations. Jean received her B.S. in comprehensive psychology from the University of Nebraska at Kearney, an M.S. in experimental psychology from Western Illinois University and Ph.D. in social psychology from the University of Nebraska at Lincoln.
